

## **Covid-19 Power Boat Guidelines**

- Follow state and local guidance from public health officials, marine law enforcement agencies, department of natural resources, park services and others.
- If such guidance requires or recommends, all boat occupants should wear masks or face coverings.
- Use boater's gloves during boat launch, use and recovery
- Stay in your local community.
- Limit the people aboard your boat to people in your immediate household. No guests, no friends, no grandparents that don't live in your house.
- Stay at least six feet away from other people who do not live in your house.
- Maintain safe distance at the fuel dock or loading up at the marina.
- Don't raft up to other boaters or pull up onto a beach next to someone else as it could put you in close proximity to others.
- If boater's gloves are not used, wash hands frequently or use hand sanitizer, such as after touching a marina gate or fuel pump.
- Wipe helm and throttle/shifter with disinfectant after use.
- Don't go boating if someone in your household is sick.
